Sars-CoV-2/Covid-19: Company information

Dear valued customers,

Thank you for your continued loyalty and trust in WILAmEd in these uncertain times. Our commitment and responsibility towards you have never been stronger as we face the Sars-CoV-2 pandemic.

The growing spread of coronavirus has caused a surge in demand for our Respiratory Humidifiers and Consumables, which are directly involved in treating patients suffering from Covid-19.

WILAmEd is increasing production capacity to address the demand, which has tripled compared to normal demand. We are fulfilling current orders, but delivery may be temporarily delayed, due to increased order volume.

Our action plan: Since the outbreak of the pandemic, we have put in place a special task force, ensuring strong processes and robust systems to serve the increased demand.

We continue monitoring the ever-changing circumstances surrounding the coronavirus and are going above and beyond to prepare for the latest development.

You can rest assured that we are doing everything we can to continue providing treatment solutions for those who are in need.

Stay well!

WILAmEd GmbH
